SMART Business Division

- Euromax Personal Care Division, a Unit of EUROSTAR Group based in Dubai, UAE has complied with authorities to prevent the spread of epidemics by introducing several product and solutions in this domain.

- We in Eurostar Group felt our networks across GCC and African markets can offer the SMART Business Solutions

- Eurostar Group as wealth of knowledge and expertise in health technology and allied Business Segments

ST360 - Sanitization Tunnel

EUROMAX PERSONAL CARE PRODUCTS

Application

Shopping Malls | Schools | Universities | Hospitals | Labour Camps | Factories | Big Offices | Airport | Metro | Hotels | Apartments | Warehouses etc.

Motion sensor

1.2m · 1m · 2.2 m

EUROMAX PERSONAL CARE PRODUCTS

CORONA VIRUS PROTECT YOURSELF

ST 360 Standard Model

Specification

Size (L x W x H)	1m x 1.2m x 2.2m
Frame	MS powder coated steel frame
Cladding	2mm thick MS powder coated sheet
Motion Sensor	Yes
Flooring	3mm thick checker plate/ Rubberized Mat
Water Tank	120L
Nozzles	Nickel Plated
	Hole size: 0.2mm
	Max pressure: 100bar/1000 psi
	Connection(inch) : 10/24
Pressure Pump	1.5HP
Weight	450Kg
Pipe	9mm high pressure flexible pipe
Spray Sanitizer chemical	Approved Disinfectant
Plastic curtain	Yes
Light	Yes
Shipment 20/40	8/18nos
Wheels	75mm dia high duty wheels
Spray duration/sec	10sec
Water consumption	0.5L/min
Power consumption	220-230VAC

▶ The Branding can be done based on customer requirement's.
▶ The Tank Capacity also can be made into 500 and 1000Litres.
▶ Thermal Screening Solution can also be provided separately.

USP

- The Sanitization Tunnel is MADE IN UAE.
- The Unit is made out of MS Steel and ACP.
- Its Very Durable and made for Outdoor and Indoor installations.
- We provide One year Warranty.
- Installation and Training is Free.
- We also make Custom design Tunnels.
- After Sales Support
- AMC
- Can Provide Export Pack and How to assemble kit.
- SS Food Grade 305 also available for catering and F&B facilities.

ST360SS - Sanitization Tunnel

EUROMAX
PERSONAL CARE PRODUCTS

Sanitization Tunnel
Food Grade SS304

PRODUCT FEATURES

- Long lasting construction
- Motion sensor system
- Approved disinfectant
- Heavy duty engineered product

Applications:

- Industrial Kitchens
- Restaurants
- Hotel
- Catering Facilities
- Food Processing Units
- Fruit and Vegetable Processing
- Bakeries
- Ice Cream Factories

ST360SS

- Height- 220cm
- Width-108cm
- Depth-100cm
- PIR Sensor
- Nozzles 14 Nos.
- Toughend Glass Window
- Drain Points
- Built in Tank: 25Ltrs or 100Ltrs
- Heavy Duty Flooring Sheet
- High Power Motor
- Food Grade Compliant

TS300 - Smart Thermal Scanner Station

EUROMAX
PERSONAL CARE PRODUCTS

Access control system with

- Forehead Temperature Measurement
- Face Recognition
- Mask Recognition
- Fever Warning
- Data Query

EUROSTAR ★

1x Thermal imaging sensor
When the equipment is running, it detects the temperature difference and analyzes it. It will automatically warn when the detected temperature exceeds the set value

2 x 2MP AI HD camera
The camera is analyzed by a database algorithm, Fast face recognition comparison and judgment.

24 x LED white light
LED fill light can help camera system to shoot, Can fill the scene according to the actual situation.

2 x LED Infrared Light
Better capture of images at night to achieve more uniform light on the screen.

1.2 mm thick tempered glass
High-definition clear picture quality, no dropped frames,color balance.

7 inch IPS HD screen
Clear picture quality in HD No dropped frame color balance

All aluminum body
Integrated aluminum alloy forming process to achieve uniform heat dissipation.

Application

Functions and Features

Accurate Temperature Measurement
Error of plus or minus 0.3 ℃

Two-eye recognition
Support two-eye live human face detection

Mask Detection
No need to remove the mask, automatically capture the face for identification

Fast recognition
200ms face recognition

30,000-Person Face
Support 30,000 local face storage

High Recognition Rate
Face recognition accuracy rate is as high as 99.5%

Fill-in light
Built-in fill-in light, low-light situations applicable

Embedded Systems
Low power consumption, high stability

Backstage Management
Abnormal records, equipment management, personnel management

Mobile APP
Visitor management, information push

Ensure safety during resumption of production
Combat the epidemic effectively

Temperature error range ± 0.3 ℃
Detect body temperature accurately, intelligent warning in case of fever

Normal body temperature ✓
36.0°C-37.3°C

Hypothermia ⚠
37.3°C-38.5°C

High body temperature 🔥
More than 38.5°C

Product Features

INFRARED TEMPERATURE MEASUREMENT
100 MS complete the temperature test (@within 1 meter), +or- 3°C temperature measurement accuracy (@ ring temperature 20-30°C), suitable for indoor windless environment

HIGH TEMPERATURE ALARM
Real time sound and light alarm of temperature anomaly, dual authorization of face recognition and temperature measurement, control rapid passage

FACE RECOGNITION
200MS accurate face recognition, 50,000 face database, effectively prevent photos, video and other illegal attacks

MOBILE TERMINAL, WE MANAGEMENT
Timely upload the identity information with body temperature, body temperature warning value background and APP can be set.

Application Scenario

- Airport
- Station
- Wharf
- School
- Hospital
- Scenic Spot
- Enterprise
- Market

Product Development

Face recognition temperature measuring terminal → The APP end → The PC side manages the background

- Personnel database
- Approval Management
- Parameter setting

- The attendance management
- Organizational structure
- Equipment management

- Attendance statistics
- Access Control
- Visitor System

UV Blaster-UVC Light Based Room Disinfection

EUROMAX
PERSONAL CARE PRODUCTS

◆ **CHEMICAL FREE UV-DISINFECTION** ◆ **FAST & EFFICIENT DISINFECTION**

Non contact Faster Surface Disinfection Based on UVC

360° illumination

360° Sensors for human safety

Audio & Visual Safety Alarm

Wireless 10m Operating Distance

Android & Windows based Operation

Easy to Carry

The UV-Blaster Disinfection is so versatile that it can disinfect a 12 x 12 feet room in 10 minutes. The built-in timer is programmed in hours and minutes. You can customize sanitization time depending on the size of the room. The system can be controlled remotely via Android & Windowed based operation.

Parameter	Specification
Total UV Output	250 Watts
UV Tube	6 Nos
Operation	Android / Windows
Connectivity	100 meter wireless
Current	220 VAC, 50Hz
Power Consumption	800Watts
Lamp Life	10000 Hours
Dimension	H 1900 x L 400 x W 400 mm
Weight	≤ 35 Kgs

UV Blaster

The UV-Blaster can be used for the following environments or wherever microbial disinfection is required:

✦ Nursing Homes, Clinic ✦ Outpatient Surgery Centers ✦ Physicians Offices, Ambulance
✦ Patient Rooms, Waiting Rooms ✦ Testing Laboratories, Operation Theater
✦ Ventilator Clinics & Kennels ✦ Passenger Flights &, Bus, Train & Metro
✦ Airport, Metro Station & Banks ✦ Schools-Classrooms, Food Processing
✦ Detention Centers, Homeless Shelters ✦ Shopping Complex, Movie Theaters
✦ Hotel Rooms, Lockers Rooms

Professional Thermal Camera for Shopping Malls & Large Traffic Areas

TC1000

♦ Face Detection, Body Temperature Detection, and Face Capture

♦ Abnormal temperature alarm: High temperature limit, Low temperature limit, Zone temperature difference alarm

♦ Support global temperature measurement and regional temperature measurement

♦ **Temperature Accuracy**
Target temperature 35°C A 38°C ±0.3 °C
Target temperature 20°C A 33°C ±0.6 °C
Target temperature 38°C A 50°C ±0.6 °C

♦ Face snapping: support simultaneous detection of 20-30 faces (accurate 5-8 faces)

♦ Installation height: 2 M Face distance: 2 M

♦ Support H.265 + / H.265 / H.264 + MJPEG double encoding, triple stream

♦ **Accuracy: without black body ± 0.5 degrees, with bold-body ± 0.3 degrees;**

♦ Single IP solution, rich network expansion capability, easy to access various video monitoring platforms

API: ONVIF (Profile S, Profile G, Profile T), SDK

Super Oxidized Disinfectant Solution

EUROMAX
PERSONAL CARE PRODUCTS

NADES

ECA (Electro Chemically Activated) Solution/Disinfectant to safe and improve the microbial quality of water, food, environment and surface area. This environmentally friendly disinfectant is produced by the electrolysis of natural ingredients (water and salt (NaCl) only.

One For All. Perfect form of Disinfection. (Kills 99.99% of Germs)

Applications of NADES

Water Treatment	Surface Disinfection	Product Microbial Decontamination
• Drinking water treatment	• Floor/Wall/Tables	• Fruit/Vegetable sanitation
• Process water treatment	• CIP/Machines	• Fish microbial decontamination
• Swimming pool water treatment	• Filler head microbial decontamination	• Carcass washing
• Cooling tower water treatment	• Bottle rinsing	• Meat/Sea Food microbial decontamination
• Waste/Sewerage water treatment	• Reused bottles rinsing	
• Lake water treatment	• Water pipeline and water system flushing	
• Irrigation water treatment	• Tank disinfection	
	• Utensils/Equipment	

NADES Disinfectant Liquid is recommend for the Tunnels 1:3 is the ratio of dilution, So basically every 25 Litres of DL add 75 Litresof water.

DM approved.

How we work?

EUROMAX
PERSONAL CARE PRODUCTS

- Eurostar Group has been always a pioneer in the Electronics and Technology Domain for more than 4 Decades

- Our expertise and wealth of knowledge with commitment to provide excellent products has been the hallmark of success.

- Our Mantra is Scout/Sell/Service

- Value for Money and understanding the Customer needs

- We also provide Reseller Program mechanism for the Smart Business Solutions

- We are flexible and adaptable.
